REDUCING POWER CONSUMPTION IN MONITOR BY SWITCHING OFF HEATER POWER IN POWER-OFF MODE

I believe said patentee(s) to be the original, first and sole/joint inventor(s) of the subject matter which is described and claimed in said patent, for which a reissue patent is sought on the invention entitled REDUCING POWER CONSUMPTION IN MONITOR BY SWITCHING OFF HEATER POWER IN POWER-OFF MODE.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose information which is material to patentability and to the examination of this application in accordance with Title 37 of the Code of Federal Regulations §1.56. I hereby claim foreign priority benefits under Title 35, U.S. Code §119(a)-(d) or §365(b) of any foreign application(s) for patent or inventor's certificate, or §365(a) of any PCT International application which designated at least one country other than the United States, or §119(e) of any United States provisional application(s), listed below and have also identified below any foreign applications for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

☐ by reason of a defective specification or drawings.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

I believe the original of aforesaid patent to be wholly or partly inoperative by reason of my claiming more or less than I had a right to claim in the original patent, due to errors in each of claims 1 through 10, and more specifically, by failing to more broadly claim my inventions as disclosed and described in the original patent. Specifically, although the specification broadly describes power management control for monitors, independent claim 1 describes my invention too narrowly by claiming "a power supply unit for converting an AC input voltage to a DC output voltage", although my invention may be practiced "to reduce the power consumption of a color display tube", as described in column 2 at lines 57 and 58. Accordingly, it is my intent and desire to obtain broader coverage of my inventions as defined by newly presented claims 11 through 60 in this reissue application, and it is my intent and desire to obtain clarified coverage of my inventions as set forth in the amended claims 7 through 10 in this reissue application.
